

Uphold the purpose of environmental protection and conservation of water resources. The company is committed to research and manufacture of spray nozzles and and equipment with high precision automatic machining. Spray is equipped with a variety of joints, nylon tubes, stainless steel tubes, pump, pressure gauge, pipe clamp,etc.
We will continue to innovate and improve for a reliable product to meet the needs of the market.
OEM and ODM are acceptable. Is willing to grow with customers.

Usage:

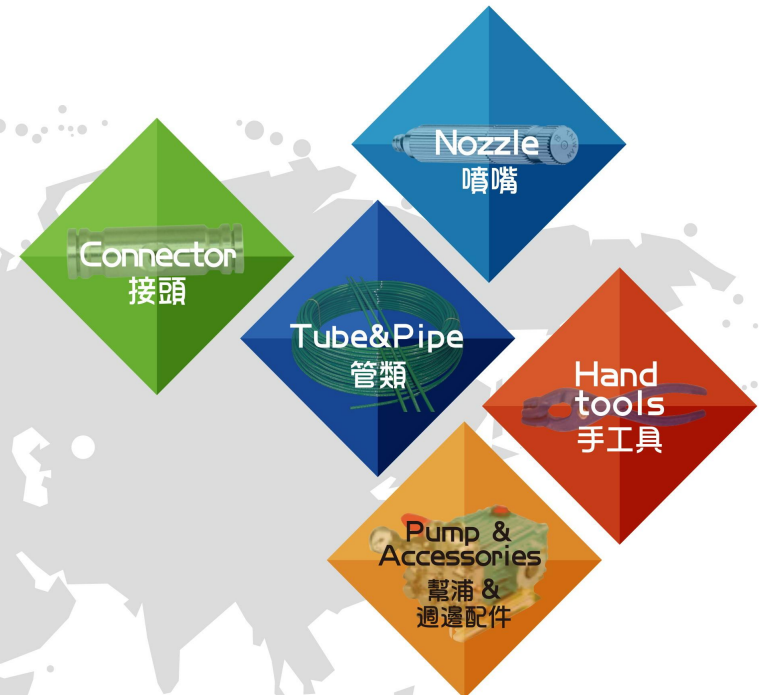

cooling, Town dust, humidity, irrigation, spraying, landscaping, cleaning, anti-static

Scope:

livestock, textiles, farming, landscape industry, ready-mix plants
soil mix proposed petrochemical plant
Gravel plants, steel mills, paper mills, car plants, rubber industry, and so on.
